design critique

PLANNING A NEW BRANCH OR REMODEL IN THE UPCOMING YEAR?

Whether you're working with 500 square feet or 5,000 square feet, **Element's Design Critique** will help you visualize what's possible, understand costs, and push your team to think outside the box.

Element's Design Critique Includes:

- Custom floor plan with suggestions on where to reduce square footage
- Recommendations for modernizing technology
- Visual examples and project inspiration
- A preliminary budget and timeline
- Branch strategy that includes merchandising and training
- Presentations to board members

Why Element Offers Free Design Critiques

We know how hard it is to plan a major project. **NO ONE wants to make a mistake on a new project**, and there's a lot of uncertainty when planning without knowing what's possible or what it might cost.

Our Design Critique is a low-risk way to:

- Explore ideas with industry experts
- Understand what's realistic for your budget
- Build trust with key stakeholders before making a big investment
- Accelerate your project timeline.

Just another **bit that matters** when helping our clients plan their branch of the future.
