LEVERAGE Announces Strategic Partnership with Pure IT, Tellerix, and Spider Networks to Strengthen Credit Union Technology Solutions

TALLAHASSEE, FL – *LEVERAGE*, the service corporation for The League of Credit Unions & Affiliates, is proud to announce strategic partnerships with three industry-leading IT providers—Pure IT, Tellerix, and Spider Networks. This collaboration enhances *LEVERAGE*'s ability to deliver comprehensive, cutting-edge technology solutions to credit unions across the nation.

In an increasingly complex digital landscape, credit unions face mounting challenges related to cybersecurity, data protection, IT infrastructure, and digital transformation. The partnerships with Pure IT, Tellerix, and Spider Networks represent a powerful alliance focused on equipping credit unions with the tools and expertise they need to remain competitive, secure, and member centric.

"At *LEVERAGE*, our mission is to help credit unions thrive—not just today, but for the future," remarked Steve Willis, President of *LEVERAGE*. "By partnering with Pure IT, Tellerix, and Spider Networks, we're giving credit unions access to the highest caliber of IT expertise and innovation in the industry. This isn't just about keeping up with technology—it's about leading with confidence, protecting members, and accelerating growth in an increasingly digital world."

Pure IT: Strategic IT Alignment and Infrastructure Excellence

With a track record of serving over 150 credit unions in just nine years, Pure IT brings deep experience and a strategic approach to technology. From executive-level IT consulting to full-scale operations support, Pure IT helps credit unions align technology with long-term growth goals. As a CUSO, Pure IT has unique expertise in providing credit unions with strategic roadmaps alongside cybersecurity, infrastructure, and managed services solutions.

"We know that technology is more than a tool—it's a strategic asset," said Delia Garrido, Senior Vice President of Client Success at Pure IT. "We're honored to partner with *LEVERAGE* to help more credit unions grow with confidence."

Tellerix: Driving Innovation and Operational Efficiency

Tellerix delivers tailored IT and managed solutions that modernize credit union operations and replace legacy systems. Offering expertise in cybersecurity, project management, core systems, and network engineering, Tellerix helps credit unions maximize ROI and future-proof their technology.

“We’re proud to stand behind *LEVERAGE*’s mission to empower credit unions nationwide. By combining cutting-edge innovation with operational expertise, we help ensure these institutions not only keep pace with change—but lead it,” said Robert Long, CEO of Tellerix.

Spider Networks: Compliance and Cybersecurity at the Core

Spider Networks specializes in securing sensitive financial data while supporting credit unions in meeting evolving regulatory standards, including NCUA and GDPR. Their services include cybersecurity, email and network infrastructure, 24/7 support, and employee training, all designed to keep operations secure and resilient.

“Cybersecurity and data privacy are essential to member trust and institutional resilience,” mentioned Tony Browne, President of Spider Networks. “At Spider Networks, we’re proud to partner with *LEVERAGE* to deliver proactive, scalable, and secure IT solutions that help credit unions stay ahead of evolving threats while building long-term confidence with their members.”

This partnership with Pure IT, Tellerix, and Spider Networks reflects *LEVERAGE*’s ongoing commitment to empowering credit unions with innovative, reliable, and secure solutions that support their mission of member service and financial well-being. By uniting with these three trusted technology leaders—and joining existing partners like Dynamic Quest and Pivot Group—*LEVERAGE* ensures its credit union partners have access to a full spectrum of services, from cybersecurity and regulatory support to strategic IT consulting and operational modernization.
